

RMIT Career Mentoring

Group Experience

Bringing together 30 students and 5 mentors in a bespoke, online group mentoring experience

The Group Experience

Each Group Experience brings together 30 RMIT students and 5 RMIT mentors from a specific industry or organisation.

Facilitated by the RMIT Mentoring team, each mentor will be welcomed and introduced to the students and asked to briefly share on their career journey.

Students and mentors will then split off into Zoom breakout rooms, connecting 1 mentor to 6 students. The smaller group-size gives students the opportunity to ask the mentor their burning career-related questions. Mentors switch between breakout rooms every 20 minutes, giving mentors the opportunity to connect with multiple groups of students.
